FOR IMMEDIATE RELEASE

Distance Learning provides new International Oracle/Hyperion Essbase Training Opportunities

Minneapolis, MN – October 17, 2007-- Harbinger Consulting Group (HCG), a leader in Oracle's Hyperion Essbase training and consulting, recently added International Distance Learning to its list of training opportunities. The new HCG training model enables international participants to receive Hyperion Essbase instruction without leaving their desks.

"The HCG University Education Staff can now deliver clear, consistent Hyperion instruction to companies with similar needs in more places around the world", said HCG's Director of Training, Craig Mesenbring. "Over the years, our training staff has traveled worldwide to deliver onsite training. That experience has prepared HCG to easily manage the logistical and cultural challenges that occur with International Distance Learning."

Clients across the U.S. and around the world use HCG's Hyperion education solutions to meet the needs of an increasingly sophisticated work force. Distance Learning provides the opportunity for companies with multiple locations to offer a coherent Hyperion education program for their staff, while significantly reducing travel costs.

About HCG

Harbinger Consulting Group is a leading provider of Oracle's Hyperion Essbase education, consulting and software. Headquartered near Minneapolis, Minnesota, their Business Intelligence solutions enable companies to optimize business performance, providing the ability to analyze data, budget, plan and forecast, generate reports and obtain maximum returns on their technology investments.
